Herpain URBIS

Capouillet

Rue Capouillet, 50 à 1060 Bruxelles

Located in the heart of the busy Place Stéphanie neighbourhood, Capouillet 50 represents the successful challenge of reconverting an office block into residential dwellings. It is ideally situated in a very calm street, not far from the shops in the "Louise bottleneck" and numerous well-known restaurants, in close proximity to several tram lines and barely five minutes from Brussels Midi train station.

The quality of the project, designed to stand the test of fashion and time, is hallmark Herpain Urbis, i.e. a genuine long-term investment.
